**Requirements**

- To install Zesha, make sure you have the latest version of **Chrome** for Mac or PC installed.

**Steps**

1. Click on "**Add to Chrome, for viewers**" on the Zesha website (https://zesha.io)
2. Open and extract the downloaded ZIP file
3. Go to Manage Extensions on Chrome, or enter chrome://extensions in your Chrome browser

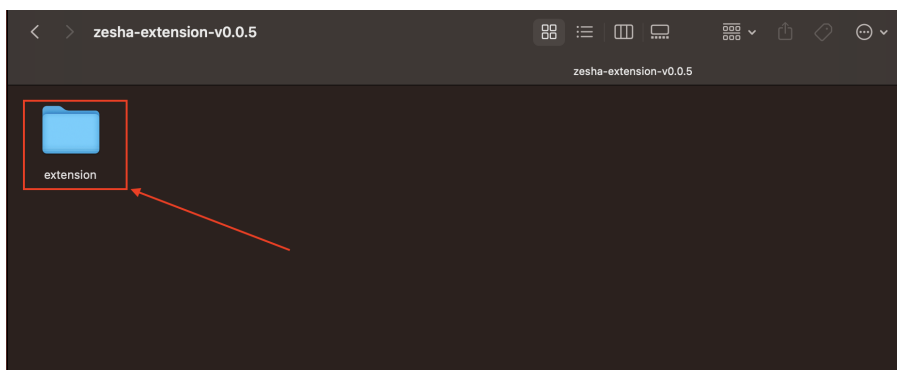

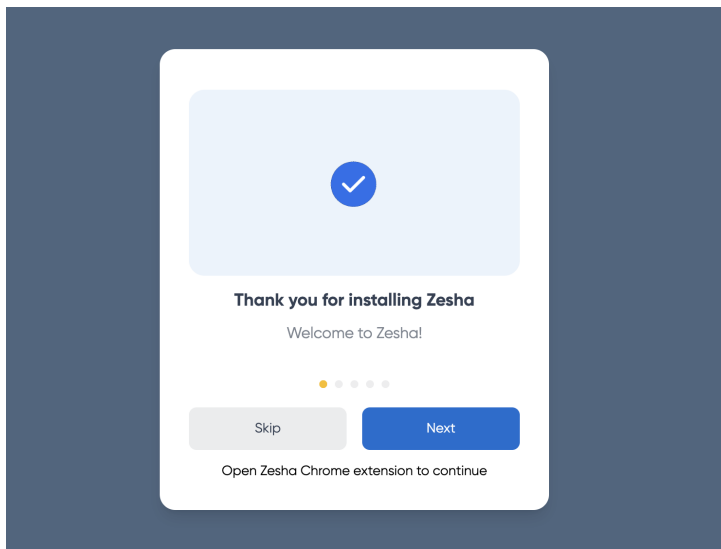

4. Click on Enable Developer Mode and the Extension page

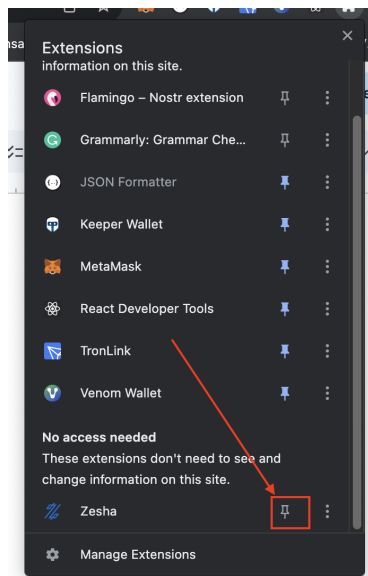

5. Click on "**Load unpacked**" on the Extensions page

6. When you click on "**Load unpacked**", a file browser will pop up. Within the file browser, navigate to the "" folder from within the folder you just extracted.

7. This will install the Zesha extension within your Chrome browser.
8. Once installed, a Welcome screen will appear, showing you the benefits of Zesha.

9. Pin **Zesha** to your Chrome navigation bar

10. Open the Zesha extension, and create an account to start receiving
recommendations.
